DEMOCRACY AND DISASTER

Oscego Times.—There were 537 failures last week, exclusive of banks. When Democracy gets on top everything under it suffers.

Elimira Advertier.—The Cleveland

place the Democratic party in power, but
perhaps it will be profitable to them in
the long run. +

A BAD BREAK.

Chicago Inter Ocean.—Congressman Bland declares that the Democratic party played a bunce game on the people in the last campaign. People who allow themselves to be buncoed by a party with the record of Democracy should even mention it.

National Banks have closed their down
since January 1st. Their supersion did
not entail the loss of a dollar to either
the Government or their depositors. To
replace, such a sound banking system by
the reliabilitation of state banks would
be an act of folly that even such a reckless political organization as the Democracy must hesitate at even considering.

its purpose, as was conceded several
months ago by Senator Sherman himself.
A statement from the distinguished
Senator at this time would go far to
clarify public opinion. President Cleveland and his Cabinet are one-minded as
to the need for the repeal of the Silver
Purchase act. In such an emergency
partisanship must give way to patriotism
and all thoughtful citizens should rally
to the defense of sound principles of
finance.

MR CLEVELAD SHOULD SPEAK.

Philiadelphia Press.—Among the calamity makers have been those members
of Tariff reform organizations who have
prepared Tariff bills semi-authoritatively
as details of the Democratic policy.
Ever's such measure has been a menace
to the business of the country, and none
of them could be made into law without
itself cassing a panie. The significance
of this has been felt in almost every industrial establishment of the land. It
has caused unrest, interference with
meterprise, the stoppage of mills and
manufactures. This is something that
the repeal of the Sherman Law will not has enterprise, the stoppage or manufactures. This is something that the repeal of the Sherman Law will not reach. Grover Gleveland can end that calanity making, but only by a decistive aciding that the Democratic purpose of destroy the protective system will not be executed while he is President.

New York Press.—A morning Cleveland organ declares: "There is no use of pretending that the Democratic party of the country is proud of Governors Pennoyer, Altgeld and Waite. It is not." As Governor Waite is a Populist it is instructive to learn that Democracy and Populism are identical. It is surprising, however, to see this organ thus repudiating what it has hitherto claimed was its own patriotic handiwork. During last summer it devoted its energies to advocating Democratic fusion with the Socialist fanatics of the West. Its purpose was "anything to beat Harrison."
